General Manager's Message and Commitment

“At Yada Global, we regard the protection of personal data not only as a legal obligation but also as a reflection of our respect for the fundamental rights and freedoms of our employees, clients, business partners, and all other stakeholders. In today's rapidly evolving digital environment, the principles of data security, transparency, and accountability form an integral part of our corporate governance approach.

Prepared in accordance with the Turkish Personal Data Protection Law (Law No. 6698 – KVKK) and, where applicable, the European Union General Data Protection Regulation (GDPR), this Policy demonstrates our corporate commitment to the lawful, secure, and responsible processing of personal data. Compliance with the provisions of this Policy by all our employees, consultants, and business partners is one of the fundamental pillars of Yada Global's commitment to delivering reliable, ethical, and sustainable services.

We remain firmly committed to continuously improving our approach to personal data protection, ensuring compliance with national and international legal requirements, and safeguarding the rights of data subjects to the highest possible standard.”

Cevat Üçüncüoğlu

Founder / General Manager

Yada Global Bilişim Planlama Proje Pazarlama İnşaat Sanayi ve Ticaret Limited Şirketi

1. Purpose

The purpose of this Policy is to ensure that all personal data processed by **Yada Global Bilişim Planlama Proje Pazarlama İnşaat Sanayi ve Ticaret Limited Şirketi** ("Yada Global" or the "Company") in the course of its activities are:

- processed lawfully;
- protected in terms of confidentiality;
- secured against unauthorized access, disclosure, alteration, or destruction;
- handled in a manner that safeguards the rights of data subjects;
- governed through an effective corporate data governance framework; and
- processed in compliance with applicable national and international data protection obligations.

This Policy has been prepared primarily in accordance with the **Turkish Personal Data Protection Law (Law No. 6698 – KVKK)** and, where applicable, the **European Union General Data Protection Regulation (GDPR) (Regulation (EU) 2016/679)**, taking into consideration the relevant secondary legislation, decisions of the Turkish Personal Data Protection Board, and internationally recognized good practices.

In carrying out its activities, particularly within the scope of international funding programmes, research projects, and technical consultancy services, Yada Global adheres to the principles of lawfulness, fairness, transparency, accountability, data minimisation, and security in all personal data processing activities.

2. Scope

This Policy applies to all personal data processed by Yada Global, whether processed wholly or partly by automated means or by non-automated means, provided that such data form part of a filing system.

The categories of data subjects covered by this Policy and the national and international programmes and activities under which personal data are processed are set out in the table below. All personal data processing activities are carried out within this framework.

Categories of Data Subjects Covered	National and International Programmes / Activities / Funding Schemes Covered
• Çalışanlar, Çalışan adayları, Stajyerler • Bağımsız danışmanlar, Proje uzmanları • Akademik danışmanlar, İş ortakları • Tedarikçiler, Alt yükleniciler, Konsorsiyum ortakları • Müşteriler, Potansiyel müşteriler • Web sitesi kullanıcıları, Ziyaretçiler • Etkinlik katılımcıları, Eğitim katılımcıları • Resmî kurum temsilcileri ve diğer üçüncü şahıslar • Employees, Job Applicants, Interns • Independent Consultants, Project Experts • Academic Consultants, Business Partners • Suppliers, Subcontractors, Consortium Partners	• Erasmus+ • Horizon Europe • Interreg • IPA (Instrument for Pre-Accession Assistance) • World Bank Projects • European Investment Bank (EIB) • European Bank for Reconstruction and Development (EBRD) • United Nations Organizations (UNDP, UN-Habitat, UNICEF, etc.) • TÜBİTAK Projects • Development Agencies, Municipalities, and Public

• Clients, Prospective Clients • Website Users, Visitors • Event Participants, Training Participants • Representatives of Public Authorities and Other Third Parties	Institutions
---	--------------

3. Legal Basis

This Policy has been prepared based on the following legislation and regulations:

National Legal Framework	International Regulations and Standards
• Turkish Personal Data Protection Law (Law No. 6698 – KVKK) • Turkish Commercial Code, Turkish Code of Obligations, Labour Law • Occupational Health and Safety Law • Social Insurance and General Health Insurance Law • Tax Procedure Law • Law on the Regulation of Electronic Commerce • Electronic Communications Law • Decisions of the Turkish Personal Data Protection Board • Regulation on the Erasure, Destruction or Anonymization of Personal Data • Other applicable legislation	• Regulation (EU) 2016/679 (General Data Protection Regulation – GDPR) • European Commission Standard Contractual Clauses (SCCs) • Guidelines of the European Data Protection Board (EDPB) • European Commission data protection practices • International agreements and the data protection requirements of funding organizations

4. Definitions

Term	Definition
Explicit Consent	Consent that is freely given, informed, and specific to a particular matter.
Anonymization	The process of rendering personal data incapable of being associated with an identified or identifiable natural person, even when combined with other data.
Data Subject	The natural person whose personal data are processed.
Personal Data	Any information relating to an identified or identifiable natural person.
Special Categories of Personal Data	Personal data specified under Article 6 of the Turkish Personal Data Protection Law (KVKK).
Data Processor	A natural or legal person who processes personal data on behalf of the Data Controller based on the authority granted by the Data Controller.
Data Controller	The natural or legal person who determines the purposes and means of processing

	personal data.
KVKK	Turkish Personal Data Protection Law (Law No. 6698).
GDPR	General Data Protection Regulation of the European Union (Regulation (EU) 2016/679).
SCC	Standard Contractual Clauses issued by the European Commission.
VERBİS	Data Controllers' Registry Information System (VERBİS).
Personal Data Breach	A security breach resulting in the unauthorized access, loss, disclosure, alteration, or destruction of personal data.

5. Identity of the Data Controller

For the purposes of this Policy, the **Data Controller** is **Yada Global Bilişim Planlama Proje Pazarlama İnşaat Sanayi ve Ticaret Limited Şirketi**.

Data Controller Information	Details
Registered Company Name	Yada Global Bilişim Planlama Proje Pazarlama İnşaat Sanayi ve Ticaret Limited Şirketi
MERSİS Number	0927108427600001
Registered Office Address	Mustafa Kemal Mah. Dumlupınar Bulvarı Tepe Prime A Blok No:266 D.No:18 PK:06510 Çankaya/Ankara Türkiye
Website	www.yadaglb.com

6. Personal Data Processing Principles

Yada Global complies with the data protection principles set forth primarily in Article 4 of the Law No. 6698 on the Protection of Personal Data, as well as Article 5 of the GDPR to the extent applicable, during the processing of personal data. In this context, personal data is processed in accordance with the following core principles:

Core Data Processing Principle	Description and Corporate Implementation
6.1 Lawful, Fair, and Transparent Processing	Personal data is processed in a lawful, fair, transparent, and predictable manner. Data subjects are informed through appropriate methods regarding the purposes for which their personal data is processed.
6.2 Accuracy and Up-to-Date Status	Yada Global implements reasonable administrative and technical measures to ensure that processed personal data is accurate and, where necessary, kept up to date. Changes reported by data subjects are reflected in data logging systems as quickly as possible.

6.3 Processing for Specified, Explicit, and Legitimate Purposes	Personal data is processed for predetermined, clearly defined, legally valid, and legitimate purposes. Not processing data outside the intended processing scope is a fundamental principle.
6.4 Data Minimization	Yada Global adopts the principle of not collecting personal data that is not required for the processing purpose. Collected personal data is limited to what is relevant, necessary, and proportionate to the purpose.
6.5 Storage Limitation	Personal data is retained for the duration stipulated by applicable legislation or for the period required by the processing purpose. At the end of this period, the data is erased, destroyed, or anonymized.
6.6 Confidentiality and Security	Yada Global implements technical and administrative measures to ensure the confidentiality, integrity, and availability of personal data.
6.7 Accountability	The company creates and maintains records capable of demonstrating that personal data processing activities are conducted in accordance with applicable legislation. Risk assessments are reviewed regularly.

7. Categories of Processed Personal Data

Depending on the nature of the activities conducted by Yada Global, the following categories of personal data may be processed:

Data Category	Personal Data Scope & Special Conditions
7.1 Identity Information	Name, Surname, Turkish ID Number, Passport Number, Date of Birth, Place of Birth, Nationality, Gender, Signature, Identity document details. <i>*Passport details are processed solely to the extent necessary for international travel arrangements, visa applications, and international project activities.</i>
7.2 Contact Information	Phone number, E-mail, Address, Corporate e-mail, Corporate communication accounts, Emergency contact information.
7.3 Professional Information	CV, Diploma, Certificates, Areas of expertise, Academic publications, References, Foreign language certificates, Professional chamber registrations, Work experience, Educational history.
7.4 Human Resources Data	Job application documents, Interview notes, Evaluation results, Performance records, Training records, Disciplinary records, Leave records.
7.5 Financial Information	IBAN, Bank account details, Payroll, Compensation details, Tax information, Social Security (SGK) records.
7.6 Legal Action Information	Powers of attorney, Case files, Official correspondence, Notifications, Enforcement records, Authorization documents.
7.7 Visual and Audio Data	Photographs, Video recordings, Audio recordings, Online meeting recordings.

7.8 Electronic Transaction Data	IP address, Log records, Browser information, Session records, Device information, Transaction timestamps.
7.9 Location Data	In specific activities carried out by Yada Global, location information such as duty locations of assigned personnel, project site coordinates, and operational areas of technical teams may be processed. This data is used solely for operational execution purposes.
7.10 Special Categories of Personal Data	Yada Global may process the following special categories of personal data solely in cases permitted by applicable legislation and by taking necessary technical/administrative measures. These include: • Health reports, Disability status details, Blood type information (when required) • Occupational health and safety records • Criminal conviction/background records (only when mandated by applicable legislation) • Union membership information (solely within the framework of legal obligations under labor law) <i>*Special categories of personal data are processed strictly within the legal grounds permitted by the Law.</i>

8. Geographic Information Systems (GIS) and Spatial Data Management

Since one of the primary activity areas of Yada Global is urban planning, geographic information systems (GIS), smart city applications, digital twin systems, disaster management, sustainable urbanization, and spatial analysis, spatial data management constitutes an essential part of company operations.

A significant portion of the data processed within this scope consists of technical and geographic data that does not directly identify a natural person, such as buildings, roads, infrastructure, land use, environmental indicators, urban analysis, and remote sensing data.

However, in certain cases, when information such as address details, GPS coordinates, parcel data, and location data gains the character of personal data—either on its own or when combined with other datasets—Yada Global processes such data strictly in accordance with personal data protection legislation.

In spatial analysis, methods such as anonymization, pseudonymization, data minimization, and aggregation are applied to the extent feasible and appropriate.

9. AI-Assisted Data Processing

To support the digital transformation of its operations, Yada Global may utilize artificial intelligence-assisted software tools in compliance with applicable legislation and company policies. Within this scope, AI systems may be utilized in processes such as document classification, proposal preparation, report generation, data analysis, language translation, and project management.

During the use of AI tools, the protection of personal data, the security of trade secrets, data minimization, and confidentiality obligations are taken as fundamental principles. High-risk personal data is not transferred to publicly accessible artificial intelligence platforms without an appropriate legal basis and security measures in place.

10. Purposes and Legal Grounds for Processing Personal Data

Yada Global processes personal data solely for lawful, specified, and legitimate purposes. Processing activities are based on the legal grounds specified primarily in Articles 5 and 6 of the Law No. 6698 on the Protection of Personal Data, as well as Articles 6 and 9 of the GDPR to the extent applicable.

An appropriate legal basis is determined for each data processing activity, and explicit consent is relied upon only in cases where other processing conditions provided for by law are not present.

10.1 Primary Processing Purposes

Processing Purpose Category	Description and Detailed Purposes
Human Resources Management	• Execution of recruitment processes, candidate evaluation, and interview organization • Execution of employment contracts and creation of personnel personnel files • Execution of training, career planning, and performance evaluation processes • Execution of exit/offboarding procedures
Performance of Employment Contracts	• Execution of salary payments, Social Security (SGK) notifications, and fulfillment of tax obligations • Management of fringe benefits • Execution of occupational health and safety processes
International Project Management	Within the scope of project activities carried out by Yada Global under Horizon Europe, Erasmus+, Interreg, IPA, World Bank, European Union, UNDP, EBRD, EIB, TÜBİTAK, and Development Agencies: • Submission of expert CVs and formation of project teams • Consortium management and international reporting • Expert assignments, travel arrangements, and project audits
Client and Business Partner Management	• Preparation of proposals, execution of contracts, service delivery, and invoicing processes • Execution of communication processes • Procurement activities
Fulfillment of Legal Obligations	• Execution of court orders and fulfillment of requests from official institutions • Maintenance of accounting records and fulfillment of tax obligations • Execution of auditing activities
Information Security	• Cybersecurity, network security, system continuity, and incident management

	• Authorization and retention of log records • Prevention of unauthorized access
Corporate Communication	• Organization of trainings, workshops, conferences, and webinars • Corporate announcements and event management

11. Legal Grounds for Processing

Yada Global processes personal data based on one or more of the following legal grounds.

Legal Processing Condition (KVKK Art. 5/2)	Field of Application and Details
11.1 Explicit Provision in Laws	Personal data is processed based on relevant legislation in cases where laws mandate data processing in fields such as occupational health and safety, tax, social security, accounting, and commercial law.
11.2 Establishment or Performance of a Contract	Personal data is processed to the extent necessary for the establishment and performance of contracts such as employment contracts, consultancy contracts, service contracts, procurement contracts, and project partnership contracts.
11.3 Fulfillment of Legal Obligations	Data may be processed for the purpose of fulfilling Yada Global's obligations under tax, social security, labor law, accounting, public procurement, and international funding programs.
11.4 Establishment, Exercise, or Protection of a Right	Personal data may be processed within the scope of dispute resolution, court proceedings, arbitration, administrative applications, and legal consultancy activities.
11.5 Legitimate Interest	Yada Global may process personal data for corporate security, information security, fraud prevention, risk management, internal audit, quality management, customer satisfaction, and corporate planning, provided that it does not harm the fundamental rights and freedoms of the data subject. Legitimate interest evaluations are recorded in writing when necessary.
11.6 Explicit Consent	Explicit consent of the data subject is obtained in cases where other processing conditions specified by law are not present. Explicit consent must be based on free will, relate to a specific subject, be based on information, and be withdrawable at any time. The withdrawal of explicit consent affects data processing activities after the date of withdrawal.

12. Processing of Special Categories of Personal Data

Special categories of personal data are processed strictly within the framework of Article 6 of the KVKK, relevant secondary legislation, and decisions of the Personal Data Protection Board.

Yada Global implements additional technical and administrative security measures in the processing of special categories of personal data. Within this scope, access authorizations are restricted, encryption

methods are applied, access logs are maintained, unauthorized sharing is prevented, and secure communication methods are used during transfer.

Health data and other special categories of personal data are protected in a manner accessible solely by persons whose access is necessary for processing.

13. Data Minimization and Necessity Principle

Yada Global adopts the "as much data as necessary" principle while carrying out its activities. Within this scope, unnecessary data is not requested, alternative methods are evaluated for the same purpose, data whose necessity no longer exists is not retained, and data collection processes are reviewed regularly.

Before commissioning a new project or information system, Privacy by Design and Privacy by Default principles are taken into account to the extent feasible.

14. Transfer of Personal Data

Yada Global may transfer personal data to third parties solely to the extent necessary for the realization of the purposes specified in this Policy and in accordance with applicable legislation.

In the transfer of personal data; legality, data minimization, purpose limitation, security, confidentiality, and proportionality principles are taken as fundamental. Third parties to whom data is transferred are expected to process the transferred data strictly in line with the specified purpose, and where necessary, this matter is secured through contractual obligations.

15. Domestic Transfer of Personal Data

Personal data may be shared with the following individuals and organizations within the framework of the conditions specified in the applicable legislation:

Transferred Parties	Scope and Sharing Purposes
15.1 Authorized Public Institutions and Organizations	For the purpose of fulfilling legal obligations; data may be shared with Courts, Public Prosecutor's Offices, Ministries, TÜBİTAK, National Agency, Social Security Institution (SGK), Tax Offices, Municipalities, Development Agencies, and regulatory and supervisory authorities.
15.2 Business Partners	Data may be shared, strictly to the extent necessary, with consultants, audit firms, law offices, financial advisors, independent auditors, and educational institutions from which Yada Global receives services or conducts activities jointly.
15.3 Suppliers	Data may be shared, to the necessary extent, with suppliers providing services for the execution of information technology, server services, backup, e-mail services, cloud infrastructure, technical maintenance, and enterprise software.
15.4 International Project Partners	In international projects executed by Yada Global; personal data required within the scope of the project may be shared with the coordinator

	organization, consortium partners, technical experts, auditing bodies, and funding bodies. These transfers are carried out within the framework of project agreements and relevant legislation.
--	---

16. International Transfer of Personal Data

Due to the nature of its international activities, Yada Global may transfer personal data abroad. International transfers of personal data are carried out in accordance with **Article 9 of the Turkish Personal Data Protection Law (KVKK)** (as amended and effective from **30 July 2024**), the relevant secondary legislation, and, where applicable, the provisions of the **General Data Protection Regulation (GDPR)**. Appropriate technical, organizational, and contractual safeguards may be implemented to protect the rights of data subjects during such transfers.

Cross-Border Transfer Method	Description and Safeguard Mechanisms
16.1 Countries with an Adequacy Decision	Personal data may be transferred, within the framework of applicable legislation, to countries determined by the Personal Data Protection Board to offer an adequate level of protection.
16.2 Transfers Subject to Appropriate Safeguards	For data transfers to countries lacking an adequacy decision, one or more of the appropriate safeguards provided by law may be utilized. These include Standard Contractual Clauses (SCC), Binding Corporate Rules (BCR), or other safeguards approved by the Board.
16.3 Derogations for Specific Situations Provided by Law	In exceptional cases set forth by law, personal data may be transferred abroad to the extent permitted by applicable legislation. In such cases where transfer is mandatory, additional measures are implemented to protect the rights and freedoms of the data subject.
16.4 Explicit Consent	Explicit consent is relied upon as a legal basis only in cases where other data transfer conditions provided for by law are absent. Yada Global treats data transfers based on explicit consent as an exceptional method, prioritizing other transfer mechanisms provided by law wherever feasible.

17. Data Sharing in International Projects

A significant portion of Yada Global's activities is based on the management of international projects and consortia. Within this scope, personal data may be shared with the European Commission, the European Education and Culture Executive Agency (EACEA), the European Research Executive Agency (REA), Horizon Europe, Erasmus+, Interreg, the World Bank, the European Investment Bank (EIB), the European Bank for Reconstruction and Development (EBRD), United Nations organizations, international universities, research institutions, and consortium partners.

The personal data shared are generally limited to expert curricula vitae (CVs), contact information, academic qualifications, professional experience records, project assignment information, and travel arrangement details. The principle of data minimisation is observed in every data-sharing activity.

18. Data Processors and Sub-processors

Yada Global may obtain certain services from external service providers. Such service providers may act as **Data Processors**, processing personal data solely on behalf of and under the instructions of Yada Global.

Contracts concluded with Data Processors include provisions relating to confidentiality, information security, data protection obligations, the use of sub-processors, personal data breach notification, and audit rights. Data Processors shall not process personal data for their own purposes.

19. Cloud Services and Digital Infrastructure

Yada Global may utilize reliable cloud computing services in the course of its operations. Corporate e-mail services, file storage, online meetings, project management, data backup, office applications, and collaboration platforms may therefore be operated through cloud-based systems.

When selecting cloud service providers, Yada Global takes into account information security, data protection requirements, internationally recognized security standards, and contractual obligations. This Policy may be updated where necessary in response to changes in the technologies used.

20. Cookies and Website Services

Cookies and similar technologies may be used on Yada Global's websites and digital platforms to enhance the user experience, ensure system security, and provide services. The use of cookies is governed by a separate **Cookie Policy**. Where required under applicable legislation, user consent is obtained for the use of non-essential cookies. Detailed information regarding cookies is available in the published **Cookie Policy**.

21. Ensuring the Security of Personal Data

Yada Global adopts a risk-based information security approach to prevent the unlawful processing of personal data, unauthorized access, alteration, disclosure, loss, or damage.

Accordingly, appropriate technical and organizational measures are implemented to ensure the security of personal data, while information security processes are regularly reviewed and continuously improved.

22. Administrative Security Measures

The principal administrative measures implemented by Yada Global are set out below.

22.1 Authorization and Access Management

Access to personal data is restricted based on job responsibilities, authorization levels, and the **need-to-know principle**. Access rights are reviewed periodically and are updated or revoked in the event of a change in duties or the termination of the employment or contractual relationship.

22.2 Confidentiality Obligations

Employees, consultants, interns, subcontractors, and third parties acting as Data Processors are subject to confidentiality obligations regarding the protection of personal data. Where necessary, these obligations are reinforced through confidentiality undertakings or contractual provisions.

22.3 Training and Awareness

Yada Global conducts regular training and awareness activities to enhance employees' knowledge and awareness of personal data protection and information security.

22.4 Policies and Procedures

Policies, procedures, and instructions deemed necessary to support personal data processing activities are established, maintained, kept up to date, and made available to employees.

22.5 Risk Management

Risks associated with personal data processing activities are assessed at regular intervals. Additional technical and organizational measures may be implemented for processing activities identified as presenting a higher level of risk.

23. Technical Security Measures

Yada Global implements appropriate technical and organizational security measures to prevent the unlawful processing of personal data, unauthorized access, alteration, disclosure, or loss of personal data, taking into account the nature of the personal data, the scope of the processing activities, the state of the art, implementation costs, and the risks associated with the processing activities.

Accordingly, the following fundamental principles are adopted to ensure the security of personal data:

- Access to information systems is restricted based on roles, authorizations, and responsibilities.
- Personal data may only be accessed by authorized individuals to the extent necessary for the performance of their duties.
- Information systems are regularly reviewed, and necessary security updates are implemented.
- Appropriate technical safeguards are applied to ensure the confidentiality, integrity, and availability of personal data processed electronically.
- Logging and monitoring mechanisms are established within information systems processing personal data to ensure traceability and, where necessary, auditability.
- Processes are maintained for the identification, assessment, and remediation of incidents that may affect information security.
- Risks affecting the security of personal data are assessed periodically, and necessary technical and organizational improvements are planned.
- The information technology infrastructure is managed in accordance with current security requirements and recognized good practices.
- Backup, access management, incident management, and business continuity processes may be implemented to ensure the ongoing security of systems processing personal data.

Yada Global regularly reviews and, where necessary, updates its technical and organizational security measures in accordance with applicable legislation, decisions of the Turkish Personal Data Protection Board, internationally recognized good practices, and the Company's information security policies.

24. Remote and Hybrid Working Security

For remote and hybrid working arrangements, information security measures such as secure internet connections, the use of corporate devices, VPN or equivalent secure access methods, screen locking, and secure file-sharing practices may be implemented. Employees are responsible for maintaining the confidentiality of personal data while working remotely.

25. Personal Data Breach Management

Yada Global aims to ensure the effective management of incidents that may affect the security of personal data. Accordingly, personal data breaches are assessed as promptly as possible, their impact is analyzed, appropriate technical and organizational response measures are implemented, and corrective actions are taken to prevent recurrence.

Where a personal data breach gives rise to a notification obligation under the Turkish Personal Data Protection Law (KVKK), the Turkish Personal Data Protection Authority and, where required, the affected data subjects shall be notified in accordance with the applicable legislation. Where the GDPR applies, the relevant notification requirements under the Regulation shall also be observed.

26. Business Continuity and Disaster Recovery

Yada Global aims to establish business continuity and disaster recovery processes to ensure the continuity of its information systems. Within this framework, critical systems are identified, backup strategies may be implemented, emergency scenarios are assessed, and technical solutions supporting service continuity are developed.

27. Information Security Standards

Yada Global aims to develop and continuously improve its information security processes in accordance with nationally and internationally recognized standards and good practices.

28. Retention of Personal Data

Yada Global retains personal data only for the period required by applicable legislation, for as long as necessary to fulfill the purposes of processing, and to the extent necessary to comply with its legal obligations.

The following criteria are taken into account when determining retention periods:

- Statutory limitation periods prescribed by applicable legislation;
- Contractual obligations;
- Retention requirements imposed by public authorities;
- Potential legal dispute risks;
- Whether the purpose of processing continues to exist.

Upon the expiry of the applicable retention period, personal data shall be erased, destroyed, or anonymized in accordance with the applicable legislation and this Policy.

29. Retention Periods

The table below sets out the general retention periods applied by Yada Global. Where applicable legislation prescribes a longer or shorter retention period, the relevant legal provisions shall prevail.

Data Category	Retention Period
Job application documents	Up to 2 years from the conclusion of the recruitment process (only where the applicant has been informed and an appropriate legal basis exists)

Employee personnel files	10 years following the termination of the employment relationship (in accordance with the applicable legislation)
Payroll and salary records	10 years
Accounting and commercial records	Retained for the period prescribed by the applicable legislation (generally 10 years)
Social Security Institution (SGK) records	Retained for the period prescribed by the applicable legislation
Occupational health and safety records	Retained for the period prescribed by the applicable legislation
CCTV recordings	Retained for a reasonable period necessary for the intended purpose (unless exceptional circumstances require otherwise)
Website access logs	Retained in accordance with the applicable legislation and information security requirements
E-mail records	Retained for the period required for business operations and in accordance with the applicable legislation
Project documentation	Retained for the period required by the relevant funding organization or the applicable legislation

Note: Where a specific law prescribes a different retention period for a particular category of personal data, the retention period specified in that legislation shall apply.

30. Deletion, Destruction and Anonymization of Personal Data

Where the purpose of processing no longer exists or the applicable retention period has expired, personal data shall be erased, destroyed, or anonymized. The method selected shall take into account the storage medium, the nature of the data, and the risk of recovery.

30.1 Deletion

Personal data stored in electronic environments may be erased through methods such as deletion from databases, removal of access authorizations, secure deletion software, or the destruction of cryptographic keys (where appropriate). For physical records, appropriate methods may be applied to ensure that personal data become unreadable and cannot be reused.

30.2 Destruction

Where storage media are decommissioned, personal data shall be destroyed in a manner that prevents their recovery. Such methods may include physical destruction, shredding, melting, or the use of secure destruction services.

30.3 Anonymization

Anonymization is the process of rendering personal data incapable of being associated with an identified or identifiable natural person, even when combined with other data. Yada Global may apply

anonymization techniques, particularly in statistical analysis, urban planning, Geographic Information Systems (GIS), and research activities. Depending on the nature of the activity, the following methods may be used:

- Generalization
- Aggregation
- Masking
- Pseudonymization*
- Randomization
- Geographic Masking
- Data Reduction

*Note: Although **Pseudonymization** is an important security measure under the GDPR, it does not, by itself, constitute anonymization. It is therefore regarded solely as an additional protective measure.*

31. Rights of Data Subjects

Under Article 11 of the Turkish Personal Data Protection Law (KVKK), data subjects have the following rights:

- To learn whether their personal data are being processed;
- To request information if their personal data have been processed;
- To learn the purpose of processing and whether the data are used in accordance with that purpose;
- To learn the third parties to whom personal data have been transferred, whether domestically or abroad;
- To request the correction of incomplete or inaccurate personal data;
- To request the erasure or destruction of personal data under the conditions prescribed by law;
- To request that corrections or erasure be communicated to third parties to whom the personal data have been transferred;
- To object to decisions producing legal or similarly significant effects that are based solely on automated processing;
- To claim compensation for damages resulting from the unlawful processing of personal data.

Where the GDPR is applicable, data subjects may also exercise the rights granted under that Regulation.

32. Application Procedure

Data subjects may submit requests relating to their personal data to Yada Global in accordance with the Turkish Personal Data Protection Law (KVKK) and the relevant secondary legislation.

Applications may be submitted in writing, via a **Registered Electronic Mail (KEP)** address, by using a secure electronic signature, a mobile signature, or any other method designated by the Turkish Personal Data Protection Board.

Applications shall be concluded within the period prescribed by the applicable legislation. Where identity verification is required, additional information or documentation may be requested from the applicant.

33. Review of the Policy

This Policy shall be updated whenever necessary in light of legislative amendments, decisions of the Turkish Personal Data Protection Board, information security risks, organizational requirements, or changes in international obligations. It is recommended that the Policy be reviewed at least once each year.

34. Responsibilities

Responsibility for the implementation of this Policy rests with Management, the Legal and Compliance Unit, the Human Resources Department, the Information Technologies Department, third parties acting as Data Processors, and all employees, within the scope of their respective duties and responsibilities.

Every employee is responsible for complying with the Company's policies and procedures relating to the protection of personal data.

35. Review and Amendment of the Policy

This Policy shall be reviewed and, where necessary, updated in consideration of:

- amendments to the applicable legislation;
- decisions of the Turkish Personal Data Protection Board;
- developments in European Union data protection legislation (where applicable);
- changes in the Company's organizational structure;
- new services, technologies, or personal data processing activities; and
- information security risks and audit findings.

Any amendments to this Policy shall become effective on the date they enter into force and, where appropriate, shall be communicated to the relevant groups of data subjects through the communication channels designated by the Company.

36. Entry into Force and Approval

This **Personal Data Protection, Processing and Privacy Policy** has been approved by **Yada Global Biliřim Planlama Proje Pazarlama İnřaat Sanayi ve Ticaret Limited řirketi** and entered into force on **01/07/2026**.

This Policy sets out Yada Global's corporate approach to the protection and processing of personal data and is binding, within the scope of their respective duties and responsibilities, upon all employees, managers, consultants, project teams, business partners, suppliers, and other relevant parties who process personal data on behalf of the Company or have access to such data.

Yada Global is committed to ensuring lawfulness, fairness, transparency, data security, accountability, and confidentiality in the processing of personal data. The Company further undertakes to comply with the **Turkish Personal Data Protection Law (Law No. 6698 – KVKK)**, other applicable national legislation, and, where applicable, internationally recognized data protection standards.

This Policy shall be reviewed and, where necessary, updated at least once each year, or whenever required, in light of legislative developments, technological advancements, organizational needs, and changes in personal data processing activities. Any revised version shall enter into force upon the approval of the General Manager.

The current version of this Policy shall be published through the communication channels deemed appropriate by the Company and made available, where necessary, to employees, business partners, clients, and other relevant stakeholders.
