## General Manager's Message and Commitment

*“At Yada Global, we believe that diversity and equal opportunity are among our greatest strengths in shaping the smart, resilient, and sustainable cities of the future. As a company operating at the forefront of advanced technologies such as artificial intelligence, geographic information systems (GIS), cybersecurity, and urban planning, we reinforce our leadership with an unwavering commitment to gender equality.*

*Through this Gender Equality Plan (GEP), which we regard not merely as a legal obligation but as a fundamental human and corporate responsibility, we establish clear commitments across all areas of our organization—from recruitment and career development to equal pay, inclusive leadership, and a zero-tolerance approach to discrimination, harassment, and violence. Ensuring that every individual within Yada Global enjoys equal rights, equal opportunities, and a fair, inclusive, and respectful working environment is a corporate commitment made on behalf of myself and our company.”*

**Cevat Üçüncüoğlu**

**Founder / General Manager**

**Yada Global Bilişim Planlama Proje Pazarlama İnşaat Sanayi ve Ticaret Limited Şirketi**

## 1. Introduction and Objectives

**Yada Global Bilişim Planlama Proje Pazarlama İnşaat Sanayi ve Ticaret Limited Şirketi** is a hybrid global solution partner that integrates expertise in urban strategy, advanced software technologies, artificial intelligence solutions, **Geographic Information Systems (GIS), remote sensing,** and international project finance under a single corporate umbrella. Backed by more than seventeen years of experience in international project management and European Union funding mechanisms, our firm modernizes the discipline of urban planning through **digital twins, 3D modeling, and advanced algorithms,** while adopting universal ethical values, **merit-based principles, and human rights** as a core guide in its corporate operations, business ecosystem, and human resources policies.

Yada Global has adopted **all 17 items of the United Nations Sustainable Development Goals (SDGs)** as a corporate compass across all its operations, the urban and digital smart city solutions it offers, and all international consortia in which it participates at the leadership or partnership level. Within this framework, particularly in line with **SDG 5 (Gender Equality);** the company commits to building fair ecosystems for everyone by observing gender equality, **opportunity justice, inclusive diversity, and the rights of disadvantaged groups** in its high-tech urban solutions, data analytics processes, and engineering practices. Our company believes in the **multiplier effect of the female workforce and leadership** in dynamic sectors that require deep technical expertise, such as information technology and urban planning, and transforms its corporate culture accordingly at both micro and macro levels.

This **Gender Equality Plan (GEP)** is an official corporate strategy document prepared to ensure full compliance with the strict regulatory compliance criteria of multinational and multilateral global development banks (**World Bank, UNDP, EBRD, ADB, EIB**) and international tender/procurement authorities, primarily European Union funding programs such as **Horizon Europe, Erasmus+, DUT, CoVE, Eurostars, and LIFE.** Covering the **2026-2030 vision period,** this plan is structured not merely as a legal prerequisite or regulatory requirement, but as an organic part of our company's goals for sustainable growth, universal compliance, and an innovative organizational structure. Yada Global aims to fully institutionalize, measure, and carry gender equality as a sustainable model into the future within its organizational hierarchy, **decision-making mechanisms, and operational work packages** through this action plan and the monitoring and auditing mechanisms established under it.

### 1.1. Yada Global's Vision on Diversity, Equity, and Inclusion (DEI)

**Yada Global** firmly reaffirms its core commitment to providing an **equal and fair approach** to all employees, subcontractors, and project stakeholders, without any discrimination based on race, religion, language, age, ethnicity, or disadvantaged groups. The company's vision is fundamentally centered on **establishing gender balance within its technology- and engineering-oriented workforce,** increasing **female representation in decision-making mechanisms,** and fostering a **work environment free from unconscious bias** where every employee can realize their potential to the highest degree.

## 2. Legal Framework and International Standards

### 2.1. National Legislation and International Conventions

**Yada Global** conducts all its corporate operations in full compliance with the mandatory rules of national legislation and international law. In this regard, the legal framework taken as a basis is specified below:

- **Constitution of the Republic of Türkiye (Article 10):** Based on the principle of equality before the law, it declares that everyone is equal without any discrimination based on language, race, color, sex, political opinion, philosophical belief, religion, sect, or similar reasons. It implements at the corporate level the constitutional guarantee that the State is obliged to ensure that the equality of women and men exists in practice.
- **Labor Law No. 4857 (Article 5 - Principle of Equal Treatment):** It strictly prohibits discrimination in employment relations based on language, race, ability, sex, pregnancy, religion, and sect. It guarantees that no direct or indirect discrimination can be made against an employee based on gender, and a lower wage cannot be decided for an identical or equal value job due to gender.
- **CEDAW (Convention on the Elimination of All Forms of Discrimination Against Women):** It integrates the comprehensive gender equality standards offered by this international convention, ratified by Türkiye in 1985, into its corporate policies.
- **UN Global Compact (United Nations Global Compact):** It supports gender equality in parallel with the principles of human rights and labor standards.
- **12th Development Plan of the Republic of Türkiye (2026-2030):** It aligns the plan's strategic goals (Articles 726, 727, and 728) aimed at ensuring equal opportunity, empowering women, increasing employment, and ensuring equal participation in economic and social life with its corporate growth strategy.
- **Strategy Document and Action Plan on Women's Empowerment:** It adopts public strategic objectives aimed at improving the socioeconomic status of women as a reference in its corporate human resources practices.

### 2.2. Alignment with EU Gender Equality Strategy (Horizon Europe Mandatory Criteria)

**Yada Global** acts as an official consortium partner and work package leader in R&D and innovation projects within international institutions, particularly European Commission programs (**Horizon Europe, Erasmus+ KA2, DUT, CoVE, LIFE**). In accordance with European Commission regulations, having a valid and approved GEP document is a **legal prerequisite** for organizations to participate in Horizon Europe projects.

The Yada Global GEP fully meets the following **four core requirements** mandated by the EU compliance criteria:

- **1. Public Document Status:** Publication on the company's official website and availability in a downloadable PDF format.

- **2. Dedicated Resources and Budget Allocation:** Allocation of human resources and financial budget for the implementation of GEP processes.
- **3. Data Collection and Monitoring:** Annual collection, analysis, and declaration of gender-disaggregated data regarding the employee profile.
- **4. Training and Capacity Building:** Organization of corporate equality and awareness trainings for staff and managers.

## COMPLIANCE MILESTONES

Vector Timeline

National and International Regulatory Compliance Timeline

## 3. Core Strategic Areas and Action Plans

### 3.1. Equal Opportunity in Recruitment, Career Development, and Promotion

Increasing female employment in technical engineering groups and software departments, which are commonly known to be male-dominated—such as technology, cybersecurity, and artificial intelligence—is a primary objective.

- **Prevention of Unconscious Biases:** Regular trainings will be provided to human resources specialists and technical managers involved in recruitment processes to eliminate unconscious biases during interview stages.
- **Gender-Sensitive Data Analytics:** Data regarding candidates who apply for jobs, are invited for interviews, and are employed will be systematically collected and monitored on a gender-disaggregated basis.

- **Balancing Employment Approach:** If a distinct gender imbalance is detected in any department or technical group (e.g., in GIS Analytics or SaaS Engineering teams), proactive and fair talent searches that observe this balance will be encouraged in new hiring decisions.
- **Mentorship Programs:** An official mentorship mechanism, accompanied by experienced managers, will be established for newly hired female employees within the company to facilitate corporate adaptation and support their career development.
- **Blind CV (Blind Recruitment) Practice:** To substantiate the commitment to equal opportunity, the 'Blind CV' method will be implemented during the initial evaluation phase of recruitment processes, ensuring that candidates are assessed solely based on technical merit by concealing their names, photographs, and gender information.

## Equal Opportunity and Blind CV

Transparent and fair processes, equal opportunities for all candidates.

### Blind CV and Equal Opportunity Recruitment Process

### 3.2. Balanced Representation in Leadership and Decision-Making Bodies

Yada Global believes in the strategic vision and added value that the presence of female leaders in decision-making and management echelons brings to the company.

- **Management Readiness Trainings:** Specialized "Women in Leadership and Management Competencies" training programs will be organized to prepare female specialists in departments where representation balance is not fully achieved for future leadership roles.
- **Minimum 40% Representation Target:** Across all management boards, executive committees, and technical proposal evaluation and decision-making bodies handling EU and global tenders within the company, a strategic goal will be maintained to ensure that the underrepresented gender holds **at least a 40% representation rate**.

- **Guideline Integration in Decision Mechanisms:** Official decision-making manuals and **Standard Operating Procedures (SOPs)** will be developed to safeguard the gender equality perspective within decision-making processes.

Balanced Representation in Leadership and Decision-Making Bodies

### 3.3. Compensation Policies and the Principle of Equal Pay for Equal Work

Providing equal pay and fringe benefits for work of equal value, regardless of gender, forms the cornerstone of **Yada Global's** principles of justice and merit. While our company is based in Türkiye, it guarantees to balance Turkish Lira (TL), Euro (EUR), and US Dollar (USD) based compensations equally and fairly for both genders across all the international projects it conducts.

- **Equal Pay for Equal Work Guarantee:** In line with Article 5 of Labor Law No. 4857 and the goals of the 12th Development Plan, the policy of maintaining zero gender-based pay gaps among personnel carrying similar work package leaderships and technical responsibilities will continue to be meticulously enforced.
- **Annual Wage Equity Audit:** Each year, a department-based wage analysis will be conducted using human resources data, and any potential discrepancies will be identified by the GEP Monitoring Committee to plan corrective actions.
- **Transparency in Performance Metrics:** Objective, quantitative, and data-driven KPIs will be utilized in performance evaluation systems to eliminate hidden gender biases.

## Equal Work Equal Pay

Equal Rights and Pay Equity for Work of Equal Value

### 3.4. Work-Life Balance and Corporate Culture

Enabling employees, particularly parents carrying caregiving and family responsibilities, to maintain a balanced work and private life is the key to corporate productivity.

- **Flexible and Hybrid Working Models:** Leveraging the advantages brought by the company's software, AI, and GIS-focused technical structure, flexible working hours and hybrid/remote working models will be offered to all personnel in eligible processes.
- **Support for Parental Leave:** A corporate culture that encourages the utilization of statutory parental leaves (maternity, paternity, and unpaid leaves) and facilitates the reintegration processes upon return from leave will be actively supported.
- **Mindful Working Hours Management:** Care will be taken to ensure that meeting hours remain strictly within the boundaries of the start and end of the working day, fully respecting the family and social life boundaries of employees.
- **Postpartum Talent Retention Policy:** To prevent the risk of female employees leaving the workforce ("talent drain") after childbirth in technology and software firms, a "**Gradual Return / Soft Transition**" model will be implemented for the first 6 months to ease the reintegration of female employees returning from maternity leave. Under this model, adaptation to work will be facilitated by offering part-time or flexible hybrid working opportunities.

Work-Life Balance and the Gradual Return Model

### 3.5. Combating Gender-Based Violence, Harassment, and Mobbing

Yada Global strictly prohibits any form of sexual harassment, violation, intimidation (mobbing), and discrimination in the workplace, adopting a zero-tolerance policy against them.

- **Dedicated Focal Point and Advisory Board:** To address instances of sexual harassment, mobbing, and gender-based violations specifically, a confidential, independent, and impartial "Dedicated GEP Contact and Support Point" will be established, operating under the leadership of Yada Global's independent legal counsel.
- **Safe and Confidential Reporting Channels:** A corporate whistleblower and support email hotline will be designated, allowing victims or witnesses to report incidents in full compliance with the principles of confidentiality and transparency, without fear of retaliation.
- **Rapid Support and Disciplinary Mechanisms:** Reported cases will be investigated promptly, meticulously, and under strict confidentiality; the most stringent disciplinary actions and legal sanctions will be imposed on perpetrators in accordance with applicable legislation.

# Zero Tolerance Against Mobbing and Harassment

## Zero Tolerance for Mobbing and Violence

Zero Tolerance Against Mobbing and Harassment

### 3.6. Supply Chain and Subcontractor Gender Equality Criteria

**Yada Global** collaborates with an extensive network of suppliers and subcontractors across its global projects and local activities. It views the promotion of gender equality not merely within its own office walls, but across its entire ecosystem as a core mission.

- **Supplier and Subcontracting Selection Criteria:** In the selection process for subcontractors, consultants, and suppliers with whom it establishes partnerships, Yada Global prioritizes firms that possess similar sensitivities toward gender equality and equal opportunity, or maintain active action plans (GEP/CEP). This criterion is officially integrated into supplier evaluation matrices, providing our company with additional competitiveness in global regulatory compliance.

## 4. Implementation, Monitoring, and Reporting Mechanism

### 4.1. Data Collection and Gender-Disaggregated Indicators (KPIs)

To ensure that the GEP document does not remain a mere statement on paper, but instead transforms into a continuously living, audited, and improved mechanism, an official monitoring structure has been established. In order to measure progress, the following key performance indicators (KPIs) are continuously tracked and recorded:

| Key Performance Indicator (KPI)            | Measurement Method                                        | Target (2026-2030)                                                                  |
|--------------------------------------------|-----------------------------------------------------------|-------------------------------------------------------------------------------------|
| <b>Total Staff Gender Ratio</b>            | Gender distribution of personnel across the company       | Establishing and maintaining the 40% - 60% balance band                             |
| <b>Technical Staff Gender Ratio</b>        | Distribution in GIS, Software, Cybersecurity departments  | Increasing the female employee ratio to at least 35%                                |
| <b>Leadership Representation Ratio</b>     | Levels of directors, work package leaders, coordinators   | Maintaining a minimum of 40% female leader representation                           |
| <b>Recruitment Screening Funnel</b>        | HR application pool and interview invitation rates        | Creating a 50%-50% equal opportunity in interview invitations                       |
| <b>Training Participation Rates</b>        | Percentage of employees completing bias and DEI trainings | 100% participation for all company employees and managers                           |
| <b>Reporting and Resolution Statistics</b> | Reported harassment/mobbing cases and resolution times    | Zero cases target; 100% confidentiality and immediate resolution for reported cases |

Sample Dashboard and Female-Male Employee Distribution

## 4.2. GEP Monitoring Committee and Responsibilities

A multi-unit **GEP Monitoring Committee** has been established within Yada Global to oversee the effective implementation of the GEP. The committee consists of representatives reflecting the company's core operational areas and reports directly to the Managing Director:

- **Human Resources Officer:** Responsible for recruitment, promotions, the "Blind CV" application, and the collection and reporting of compensation data.
- **Legal Affairs and Compliance Officer (Committee Lead):** Ensures the auditing of legal compliance, tracking of ethical principles, and the operation of secure whistleblowing channels.
- **Global Projects Group Representative:** Monitors gender standards in EU, Horizon Europe, and World Bank tenders.
- **Software and GIS Group Representatives:** Coordinate equal opportunity practices and merit-based evaluations within technical departments.

## 5. Corporate Awareness and Training Activities

### 5.1. Unconscious Bias and Equality Training for Employees

Making equal opportunity a corporate reflex is only possible if all employees embrace this shift at the mindset and perception level. Yada Global organizes systematic training programs to raise awareness among employees at all levels:

- **Unconscious Bias Training:** Interactive workshops will be conducted, particularly for hiring managers and team leaders, as well as all employees, to help them recognize and manage implicit biases in their decision-making and communication processes.
- **Gender-Sensitive Communication Guide and Manual Training:** Yada Global mandates the use of gender-neutral, inclusive language and imagery across all prepared presentations, official proposal files, website content, and promotional materials. In line with this, employees will receive training on the "**Gender-Sensitive Communication Manual.**"
- **Legal Rights and Safe Workplace Workshops:** Regular information seminars will be provided to all personnel regarding statutory rights, prevention of harassment and discrimination, whistleblowing procedures, and support mechanisms.

## 6. Entry into Force and Approval

This **Gender Equality Plan (GEP) 2026–2030** has been approved by **Yada Global Biliřim Planlama Proje Pazarlama İnřaat Sanayi ve Ticaret Limited řirketi** and entered into force on **01/07/2026**.

This Plan is binding on all employees, managers, consultants, project teams, business partners, and all other relevant parties acting on behalf of Yada Global within the scope of their respective roles and responsibilities.

Yada Global is committed to promoting gender equality, equal opportunities, and an inclusive working environment as fundamental principles of its corporate governance approach. The Company adopts a zero-tolerance policy towards all forms of discrimination, harassment, and violence.

This Plan shall be reviewed and, where necessary, updated at least once a year or whenever required in line with applicable legislation, international good practices, and organizational needs. The current version of the Plan shall be published through the communication channels deemed appropriate by the Company.
